SHIVANI SWAMI

.NET Developer

+91 9225344048 | swamishivani606@gmail.com

PROFESSIONAL SUMMARY

Software Developer with 1+ years of experience engineering secure, scalable web applications using C#, ASP.NET Core, and Angular. Demonstrated expertise in architecting RESTful Web APIs, implementing role-based security models (JWT/RBAC), and designing responsive user interfaces. Skilled in end-to-end database management with SQL Server, Entity Framework, and ADO.NET, from relational schema modeling to query performance tuning. Proven collaborator in Agile/Scrum environments with an emphasis on clean code, automated workflows, and high-throughput application delivery.

TECHNICAL SKILLS

Programming:	C#, Object-Oriented Programming (OOP), SOLID Principles, LINQ, Generics, Collections, Exception Handling
Backend:	ASP.NET Core, ASP.NET MVC, Web API, ADO.NET, Entity Framework
Frontend:	Angular, TypeScript, JavaScript, jQuery, AJAX, HTML5, CSS3, Bootstrap, Responsive UI
Database:	Microsoft SQL Server, Relational Database Design, Stored Procedures, Views, Joins, CTEs, Query Optimization
Tools:	Visual Studio, Visual Studio Code, Git, Postman, SQL Server Management Studio (SSMS)

PROFESSIONAL EXPERIENCE

.NET Developer — **July 2025 – Present**
Dreamspire IT Consulting — *Pune, India*

KEY ROLES & RESPONSIBILITIES

- Developed and maintained web applications using C#, ASP.NET Core, ASP.NET MVC, Web API, and SQL Server.
- Designed and rolled out RESTful APIs for seamless frontend-backend integration.
- Applied business logic using C#, OOP, LINQ, Entity Framework Core, and ADO.NET.
- Created and fine-tuned SQL queries, stored procedures, tables, and database operations.
- Interfaced backend APIs with Angular, TypeScript, JavaScript, HTML, CSS, Bootstrap, and jQuery.
- Built robust CRUD operations, data validations, pagination, filtering, and search functionality.
- Leveraged Dependency Injection, async/await, exception handling, and layered architecture in application workflows.
- Troubleshot and rectified functional, API, database, and UI-related issues.
- Validated REST endpoints using Postman and conducted functional and integration testing.
- Utilized Git for version control, branching strategies, commits, and code integration.
- Collaborated with QA, UI teams, and senior developers to ship assigned deliverables.
- Engaged in Agile/Scrum activities including daily stand-ups, sprint planning, and technical retrospectives.

PROJECTS

DS Trust Housing — *Role: Team Member*
Technologies: C#, ASP.NET Core, Angular, Entity Framework, Web API, LINQ, Solid Principles, Dependency Injection, Repository, Angular Material

- Engineered enterprise architecture using ASP.NET Core Web APIs and Angular with an Entity Framework Database-First approach for complex relational data modeling.
- Constructed Member and Wing Administration modules supporting multi-wing and flat hierarchies,

document verification, and administrative approvals.

- Deployed Financial and Maintenance accounting pipelines supporting recurring billing schedules, fixed maintenance fees, penalties, and digital invoices.
- Instituted Complaint Lifecycle Tracking with Pending, In Progress, and Resolved stages alongside automatic task escalation.
- Standardized Staff and Vendor Operations including attendance tracking, task assignment, work orders, and payout records.
- Enabled community collaboration features including digital Minutes of Meetings, meeting scheduling, emergency notices, and facility bookings.
- Configured residential and guest parking allocation with designated slot controls and capacity monitoring.

DS Harvest Basket *Role: Team Member*

Technologies: ASP.NET MVC, C#, SQL Server, Bootstrap, jQuery, AJAX, MVC Architecture, Dependency Injection, CSS3, Bootstrap Framework

- Architected an end-to-end multi-tier agro-marketplace supporting 4 distinct user roles (Buyer, Seller, Courier Admin, Central Admin) with multi-level approval workflows for merchant onboarding and KYC verification.
- Implemented an asynchronous product discovery engine using AJAX and jQuery, integrating multi-parameter filtering, a 3-item product comparison module, and real-time pincode serviceability checks.
- Formulated a billing and tax calculation pipeline supporting dual GST compliance (CGST/SGST) across diverse product categories, generating dynamic PDF invoices for standard and discounted transactions.
- Devised a comprehensive order tracking mechanism spanning real-time courier status transitions (Ordered, Dispatched, Picked Up, Delivered) alongside mechanized 24-hour dispatch breach alerts.
- Programmed an integrated reverse logistics and reconciliation module handling multi-reason cancellations, replacements, and returns, streamlining merchant-to-admin refund approval requests.
- Delivered role-specific analytics dashboards rendering interactive sales trends, order settlement ledgers (net amounts after platform commission and shipping deductions), and bulk Excel export capabilities.

DS VisiTrace *Role: Team Member*

Technologies: C#, ADO.NET, SQL Server, Stored Procedures, SQL, Winforms, Triggers

- Executed a multi-tier enterprise visitor oversight system supporting 3 distinct roles (Admin, Administrator, Receptionist) managing pre-registration and on-desk check-ins.
- Systematized the badge generation and dispatch pipeline with PDF badge printing and instant email notifications mapped to host schedules, accelerating reception desk throughput.
- Established perimeter security access protocols with real-time Watchlist monitoring, dual-mode manual/timed blocklisting (1 day to permanent), and auto-expiring countdown triggers.
- Spearheaded the MeetQuest event and assembly coordination module featuring multi-tier administrative approval workflows, computerized notifications, and interactive calendar-based scheduling.
- Authored comprehensive staff and student attendance monitoring modules utilizing ADO.NET, supporting multi-dimensional tracking across Status-wise, Time-wise, and Day-wise shift views.
- Crafted centralized operational dashboards rendering real-time donut and bar analytics for daily appointments, active visitor headcounts, and visitor experience feedback metrics.

EDUCATION

Bachelor of Computer Science **2022 – May 2025**

MGM College of CS & IT, Nanded
